It will be interesting to see what is pulled together since my sense is that there weren't big environmental issues. To me, the important stuff is resiliency of drink water and waste water systems.

So....in your spare time, do you think we could put
together a presentation? Maybe pulled off the
storyboard combined with ideas from the
Organizational Assessment.

Louisiana Section
Annual Conference**

Hi David,
I work for LDEQ and I
am on the conference
committee board for
the A&WMA. I got your
name from Jeff
Robinson. He is serving
on a panel discussion
during our conference.
The reason I am
contacting you is
because we are still in
need of a keynote
speaker for our
conference. Is there any
chance you would be
available to speak
Wednesday October
18th? I heard that you
have had to deal with
the environmental
impacts from Hurricane
Harvey. A presentation
to start out our
conference about many
problems and
outcomes from Harvey
would be greatly
appreciated. If you
can't do it would you
mind forwarding to
anyone you think might
fit with this topic.
Please let me know if
you have any questions.
Give me a call to discuss
my office or my cell
(225) 721-0060. Thank
you so much for your
time.

The Louisiana Section
A&WMA 2017 Annual
